CROSSROADS is about art as a vehicle for transformation.

The artist collective Boa Mistura comes back ten years later to the place that became a landmark in their lives: Cape Town.

What they learned there is the starting point of an inspiring journey that connects through painting, the lives of a young man from the slum of Kibera in Kenya, a Mapuche indigenous woman in northern Chile, a neighbor of a favela in São Paulo, a Syrian refugee and a woman from a fishermen town in the Dominican Republic.
